

CORE COMPETENCIES

- Rack and Stack Services — high-density rack, server, storage, and network equipment installation
- Structured Cabling — Cat6A, Cat7, copper, and fiber-optic infrastructure
- MPO/MTP Fiber Deployment — trunk installation, polarity verification, optical testing coordination
- Data Hall Deployments — white-space buildout, rack-row installation, turnover support
- AI and GPU Infrastructure — high-density rack and fiber-intensive network deployment support
- Smart Hands / Remote Hands — break-fix, IMAC, inspections, authorized operational tasks
- Equipment Staging and Logistics — receiving, kitting, chain-of-custody, controlled movement
- Commissioning Support — punch-list remediation, testing coordination, turnover documentation

DIFFERENTIATORS

- Charlotte, NC headquarters with regional knowledge of the Carolinas data center market
- Documented mobilization planning framework, scaled from single smart-hands requests to multi-shift crews
- Safety-first operating discipline: OSHA 10/30-certified personnel, drug-free workplace, background-checked workforce
- Single point of contact for scheduling, work orders, and daily reporting throughout a project
- Registered UEI/CAGE holder, positioned to support public-sector opportunities as they arise

INDUSTRIES SUPPORTED

Hyperscale data centers · Enterprise data centers · Colocation providers · Cloud and IT infrastructure · AI and HPC facilities · Telecom and network infrastructure

COMPANY DATA

UEI	KJ6VNN6P2IN6
CAGE Code	0Z3V7
Founded	2024
HQ	Charlotte, North Carolina
Service Region	Carolinas & Southeast US

Eternal Minds LLC provides skilled field technicians and project support for mission-critical data center infrastructure deployments. We operate as a subcontractor, field-services partner, or supplemental workforce provider to general contractors, integrators, and infrastructure providers throughout the Carolinas and Southeast United States.
